Summary

Backend-focused MERN Stack Developer with practical experience in designing RESTful APIs, authentication systems, and database-driven applications using Node.js, Express.js, and MongoDB. Proficient in React and Next.js for building responsive user interfaces and integrating end-to-end workflows.

Skills

Language: JavaScript, TypeScript, C, C++

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Frontend: React.js, Next.js, Redux

Database: MongoDB, MySQL

Dev Tools: Git, Vercel, Render, Postman, Figma, AI tools

Others: Data Structure and Algorithm, Problem solving

Projects

ShelfShare – Team Project

[Live Link](#) | [GitHub](#)

Tech: Next.js, React.js, TypeScript, Redux, NextAuth, Shadcn, Stripe

Collaborative book-sharing platform connecting enthusiasts to lend, borrow, and discover books with community features and personalized recommendations.

- Built a secure book-sharing platform with authentication and protected routes using Next.js and NextAuth.
- Integrated stripe payment flow for borrowing and lending transactions.
- Developed reusable responsive UI components and connected RESTful APIs.
- Implemented an AI-powered assistant to handle user book-related queries.

Career.io

[Live Link](#) | [GitHub](#)

Tech: Next.js, React.js, Node.js, Express.js, MongoDB, JWT, Redux

Job portal connecting seekers and recruiters for postings, applications, profile building, and efficient hiring workflows.

- Developed RESTful APIs using Express.js and MongoDB for job and application management.
- Implemented JWT-based authentication and role-based access for recruiters and job seekers.
- Designed scalable database schemas using Mongoose for users, jobs, and applications.
- Built responsive frontend interfaces and integrated APIs for end-to-end hiring workflows.

DailyDrafts

[Live Link](#) | [GitHub](#)

Tech: React.js, Node.js, Express.js, MongoDB, JWT

Community blogging platform for creating, sharing, editing, and discovering personalized content with moderation tools.

- Built a JWT-based authentication system for secure user access.
 - Implemented full CRUD functionality for blog posts.
 - Developed responsive UI and integrated REST APIs for seamless content interaction.
 - Managed backend data flow using Node.js, Express.js, and MongoDB.
-

Education

IUBAT- International University of Business Agriculture & Technology

B.Sc. in Computer Science and Engineering (2024 – 2028)

Language

- Bangla - Native
- English - Professional
